

8.13 GARAGES, PARKING AND SITE ACCESS

Objectives

- (a) To retain the heritage character of the streetscape.
- (b) To promote the retention of original front facades, fences, masonry and landscaping that may otherwise be removed for parking.

Controls

8.13.1 All Development

- (a) Where car access is available to the rear or side of a property, parking is not permitted within the property frontage.
- (b) Where rear lane access to a property exists or is provided, garages and driveways are to be located at the rear.
- (c) No part of an existing building is to be demolished or altered in order to accommodate a carport, garage or car space within the front or side setbacks or facades.
- (d) Original fences are not to be removed to create car access from the main street frontage unless there is sufficient space to access a side driveway.
- (e) Car spaces are not supported between a building and the front boundary. Council may consider an unroofed parking space in exceptional circumstances where it is shown that the space does not dominate the setting of the house.
- (f) The form, size, detailing and materials of any new structure are to complement the heritage item, contributory building, or character area.
- (g) Where driveways are permitted, pavement materials should reflect the traditional character of the area. Large areas of continuous concrete or asphalt are not to be used, however these materials may be used in smaller areas if designed in appropriate ways. Preferred materials include dry laid paving. Stenciled concrete is not permitted.

8.13.2 Heritage Items and Contributory Buildings

- (a) Development to Heritage Items and Contributory Buildings must not include garages or driveways to the front of the property.

8.13.3 Infill Development

- (a) Infill Development must not include garages or driveways to the front of the property where these are not characteristic of the area.
- (b) Where no rear lane access is provided and it is consistent with the predominant character of the area, garages should be either setback behind the line of the dwelling frontage, or incorporated within the building design (for new dwellings).
- (c) Where the streetscape is dominated by garages located up to the front boundary, garages may be allowed in front of the dwelling. Driveway width shall be minimised to maximise on street parking availability and landscaping used to unify the garage and dwelling with the landform.
