

Figure 21 Additional floors should be setback from the street alignment

8.19.2 Heritage Items and Contributory Buildings

- (a) Details of earlier shop front features should be retained.
- (b) The maintenance and restoration of detailing to commercial/retail groups is encouraged (refer to Figure 22).
- (c) Horizontal proportions should be considered both in new development, and in the redevelopment of old facades. Consistency should be achieved through:
 - (i) Parapet height;
 - (ii) String course both at parapet level, and to the remainder of the facade;
 - (iii) Window proportions (sill and lintel height);
 - (iv) Awning height and continuity; and
 - (v) Top hamper proportions and window kick plate height.

Figure 22 Overall consistent design of elements

- (d) Where shopfront groups are listed as heritage items the following issues are to be considered:
 - (i) The extent and quality of conservation and restoration of street frontages;
 - (ii) The interface of new and existing works; and
 - (iii) The impact of new works on the existing fabric, streetscape and overall setting.
- (e) Where it is proposed to retain the street facade and construct new works to the remainder of the site, assessment will be based upon the above the impact of skyline profiles on the retained façade the setting and the cohesion of the works (refer to Figure 23).
