

B9 SAFETY

The aim of these controls is to ensure that the way in which the site and the buildings within the site are laid out, enhance security and feelings of safety and clearly delineate between private and public space.

This Part should be read in conjunction with NSW Government's Crime Prevention and the Assessment of Development Applications Guidelines under Section 4.15 of the *Environmental Planning and Assessment Act 1979*.

The preparation of a Crime Prevention Through Environmental Design (CPTED) assessment is to be prepared in accordance with the *Waverley Development Application Guide*.

9.1 BUILT FORM

Objectives

- (a) To provide for a safe environment for residents, visitors and workers and minimise the opportunities for criminal and anti-social behaviour.
- (b) To encourage the design and management of the built environment to reduce the opportunity for crime.

Controls

- (a) Maximise casual surveillance by orientating buildings towards the street.
- (b) Active spaces including windows of habitable rooms within the buildings are to be located to maximise casual surveillance of public spaces such as streets, laneways, parking areas and communal areas such as play areas, swimming pools, gardens and the like.
- (c) The design of building details including the provision of fencing, drainpipes and landscaping is to be such that illegitimate access is not facilitated through the creation of footholds, concealment and the like.
- (d) Minimise blind corners, recesses and other external areas which have the potential for concealment.
- (e) Pathways and entries providing access to, around and within the site should be designed to ensure good visibility for and of the user.
- (f) Building entries and mailbox entries are to be clearly visible, easily identifiable from the street and unobstructed.
- (g) Pedestrian routes to and from car parking spaces including to lift lobbies are to be as direct as possible with clear sightlines.
- (h) All entrance and exits, service areas must be clearly identifiable after dark by appropriate lighting.
- (i) All lighting on the site should be designed so it doesn't produce areas of glare and shadow or create a nuisance for neighbours.
- (j) Details of all lighting for public areas must be submitted with a development application for multi-residential development i.e. details of location, type and intensity.
