

- (viii) Heritage Items, Conservation Areas and adjoining Heritage Items.
- (d) Any resulting lots must have characteristics similar to the prevailing subdivision pattern of lots fronting the same street, in terms of area, dimensions and orientation.
- (e) All resulting lots must have at least one frontage to the street, and adequate vehicle and pedestrian access.
- (f) Tree removal to permit vehicle access to a new subdivision is not supported.
- (g) Applications must demonstrate that any resulting allotments can facilitate development as per the zoning and controls on the land. This includes setbacks and open space provisions.
- (h) Subdivision or amalgamation must not result in the isolation of lots or reduce the development potential of adjoining land.
- (i) Applicants may be required to submit plans that clearly identify the future development potential of adjoining land to ensure its development potential will not be adversely impacted.
- (j) Subdivision or amalgamation must not compromise any significant features of the existing or adjoining sites including streetscape character, landscape features or trees.
- (k) Subdivision must not result in the creation of a new lot that contains significant site features that would render the land unable to be developed. For example the creation of allotments that are burdened by easements, flooding, or significant trees.
- (l) The isolation of parcels of land for the purpose of environmental protection only is not permitted. This land must be incorporated into any future development and maintained by the landowners.
- (m) Public lanes and public pedestrian passageways are not to be amalgamated with private land.
- (n) Where a rear lane is provided to adjoining land, the laneway configuration must be continued through any new allotments and existing access arrangements to adjoining land maintained.
- (o) Battle axe subdivision patterns will not be permitted within residential zones, unless it can be demonstrated that it is part of the prevailing subdivision pattern.
- (p) Battle axe subdivision patterns must result in one (1) or more allotments fronting the street and only one (1) allotment being serviced by an access handle.
- (q) Access corridors are to be located to ensure existing street trees are retained.
- (r) Access handles on battle axe blocks are to be a minimum of 3.5m in width and are to be landscaped in a manner complementary to the established character and streetscape of the area.
- (s) Where a proposed development will result in a change to, or introduction of a new street address, the proposed street addressing must be notated by the applicant on the DA and CC plans. This addressing must comply with the *NSW Address Policy and User Manual 2021*.
