

- (e) Opaque or obscured glazing is not acceptable.
- (f) Reinforce corner frontages on primary shopping streets with shop or office front windows.
- (g) Openable shop fronts for restaurants or cafes and the like are encouraged, to a maximum of 80% of the façade.
- (h) Outdoor restaurants, cafes and the like are encouraged.
- (i) First level active frontages are encouraged. Some centres require first level active frontages, refer to *Part E Site Specific Development*.
- (j) Commercial ground floor frontages are to provide clear glazing where ever possible to promote passive surveillance and contribute to street activity.
- (k) One entrance to civic, entertainment, community, commercial or retail uses per 6m-10m of street frontage must be provided.
- (l) Provide regular tenancy widths, preferably between 6m-10m, or similar to adjacent shopfronts.
- (m) Development is to utilise a 500mm depth to articulate the building façade at ground level to create interest and variety in the streetscape. Ground level walls should be experienced as having depth and providing a transition between inside and outside. Modulation of the façade may include openings, setbacks, windows and doors, columns and structure.
- (n) Where carpark entrances must be located within an active frontage, innovative design solutions are to be provided that create an engaging or attractive entrance.
- (o) Where possible direct ramps and stairways into the depth of the tenancy instead of along a frontage, or provide access from a secondary frontage.
- (p) A variety of high-quality materials is to be used for active street frontages, with detailing that is of a human scale.
- (q) Active uses on levels that are setback are encouraged to look over the street, particularly on corner sites.
- (r) The context analysis submitted with the application is to determine whether the active frontage is in an area of predominantly traditional or contemporary shopfronts, and whether the frontage is on a primary or secondary shopping street. The design of the frontage is to comply with the relevant controls below. Refer also to any site specific controls in *Part E Site Specific Development*.

15.2.2 Shopfront Style

- (a) Development that is of a Traditional Shopfront style is to:
 - (i) Interpret and represent the design of adjacent Traditional Shopfronts.
 - (ii) Retain or rebuild any existing shopfronts, using construction techniques and materials that respect the original style, period and architecture of the building.
 - (iii) Provide between 40-80% of the ground level façade as glazing.
 - (iv) Articulate entrances in a similar manner to surrounding Traditional Shopfronts.
- (b) Development that is of a Contemporary Shopfront style is to:
 - (i) Have a high degree of articulation and diverse materiality.
 - (ii) Articulate entrances with inset doorways and thresholds.
 - (iii) Provide between 40-80% of the ground level façade as glazing.
