

1.3 LOW DENSITY RESIDENTIAL DEVELOPMENT

This section applies to development for the purposes of Dwelling houses; Dual occupancies; Secondary dwellings; Semi-detached dwellings; and/or Attached dwellings.

1.3.1 General Controls

- (a) Details of ongoing waste management strategy are to be documented within a *Site Waste & Recycling Management Plan* (SWRMP).
- (b) A waste and recycling storage area for each dwelling must be located on the relevant lot in a position convenient for both users and waste collection personnel.
- (c) Sufficient space must be provided to accommodate the storage of waste and recycling likely to be generated on the premises between collections and any associated equipment.
- (d) Waste and recycling receptacles must be stored at all times within the boundary of the site and screened from the public and commercial domains unless otherwise approved by Council under Section 68 of the *Local Government Act 1993*.
- (e) All waste and recycling must be inside Council approved bins or skips, with lids closed to reduce littering, stormwater pollution, odour and vermin. Waste and recycling not presented in the correct manner will not be collected.
- (f) Council will supply and service 140L and 240L bins.
- (g) Organic waste should be either treated in a composting or worm farming system or collected separately in a Council approved bin or skip (refer to Annexure B1-5).
- (h) Incineration devices are not permitted.

1.3.2 Amenity

- (a) Waste and recycling storage areas must be visually and physically integrated into the design of the development.
- (b) Waste and recycling storage areas must be designed and located to avoid adverse impacts on the amenity of adjoining sites including noise, odour and visual impacts.
- (c) All waste and recycling receptacles must be put out for kerb-side collection no earlier than the previous evening.
- (d) All waste and recycling receptacles must be removed from the kerb-side or laneway as soon as possible on the same day as the collection service.

1.3.3 Ongoing Management

- (a) Ongoing management of the property is to be in accordance with the approved SWRMP to ensure that appropriate waste and recycling services are provided.
- (b) Waste generated by a development must not exceed the maximum permitted generation rates for the building use.
