

1.4 ALL OTHER DEVELOPMENT

This section applies to development for the purposes of the following: all residential accommodation not affected by *1.3 Low Density Residential Development* above; Tourist and visitor accommodation; Commercial development; and/or any other development.

Please note that:

- Backpacker accommodation is a commercial property use and requires a commercial waste service.
- Boarding houses/time shares/co-living housing, serviced apartments, retirement village, and independent living are residential uses and require a domestic waste service, incurring a Domestic Waste Charge.

1.4.1 Waste Storage Areas

1.4.1.1 GENERAL CONTROLS

- (a) Details of ongoing waste management strategy are to be documented within the SWRMP and reviewed every 5 years (or earlier when needed) to employ updated waste reduction strategies and technologies.
- (b) Sufficient space must be provided to accommodate the storage of waste and recycling likely to be generated on the premises between collections and any associated equipment. Minimum waste and recycling generation rates for various commercial and residential developments are provided in Annexure B1-2.
- (c) Ensure bins can be placed side-by-side and can be easily manoeuvred (no stacking).
- (d) Bin-carting route from the storage area to the collection point is safe and convenient with no steps or steep gradients.
- (e) Waste storage rooms or areas are to be easily accessible by residents and users of the waste system (<30 m from collection point).
- (f) Waste rooms are not to be used for any purpose other than the storage of waste and/or waste infrastructure.
- (g) Where a door or gate opens inwards, no bins are stored within the arc of the swinging door. Where a door or gate opens outwards, the gate does not block the pathway for moving bins out to the collection point.
- (h) Waste and recycling receptacles must be stored at all times within the boundary of the site and concealed from the public and commercial domains unless otherwise approved by Council under Section 68 of the *Local Government Act 1993*.
- (i) All waste and recycling must be inside Council approved bins or skips, with lids closed to reduce littering, stormwater pollution, odour and vermin. Waste and recycling not presented in the correct manner will not be collected.
- (j) Council will supply and service 140L, 240L and 660L bins. The use of 660L bins will only be considered where:
 - (i) The collection point has enough space to present 660L bins without impacting pedestrian access to the footpath and/or driveway of the development;
 - (ii) The collection point is level; and,
 - (iii) Council waste collection vehicle can access the collection point either within the property boundary or at the kerb-side and the collection point meets requirements in Annexure B1-3.
