Land Use Risk Categories

Land use is categorised into eight Land Use Risk Categories according to the sensitivity of each type of land use to flooding. The definitions of each land use are based on the Waverley LEP 2012 and are categorised as follows.

Table 1 Land Use Risk Categories

Category	Examples (not exhaustive, refer to Waverley LEP 2012 for full list).
Critical uses and facilities	Community facilities which may provide an important contribution to the notification or evacuation of the community during flood events (e.g. SES headquarters and Police Stations); hospitals, emergency services; public administration building and residential care facility.
Sensitive Uses and Facilities	Offensive storage establishments; seniors housing; centre-based child care centres; preschools; schools and other educational institutions; correctional centres; liquid fuel depots; public utility undertakings (including electricity generating works; sewerage treatment plant; sewerage systems; telecommunication facilities; utility installations and water treatment facilities) which are essential to evacuation during periods of flood or if affected would unreasonably affect the ability of the community to return to normal activities after flood events; and waste disposal facilities.
Subdivision	Subdivision of land which involves the creation of new allotments with potential for further development.
