

- (l) All fence controls are subject to the provision of adequate sight lines for emerging vehicles to enable surveillance of pedestrians using the footpath in front of a dwelling.
- (m) A setback is to be provided for pedestrian entry gates.

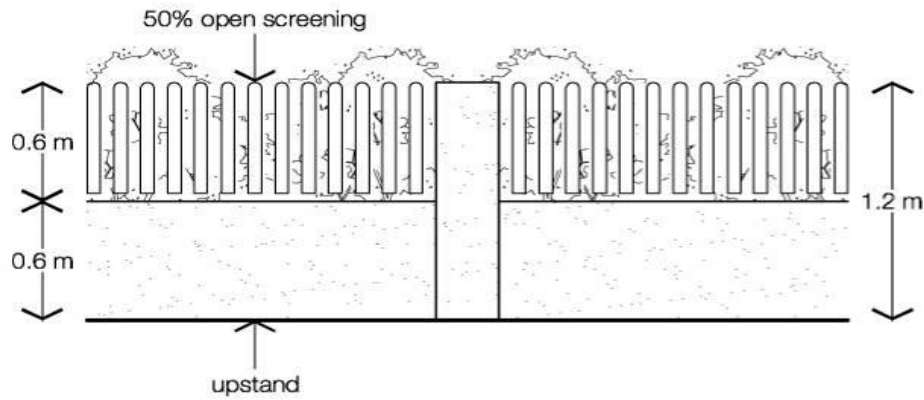

Figure 8 Example of front fence with maximum solid up stand of 600mm and open design top section

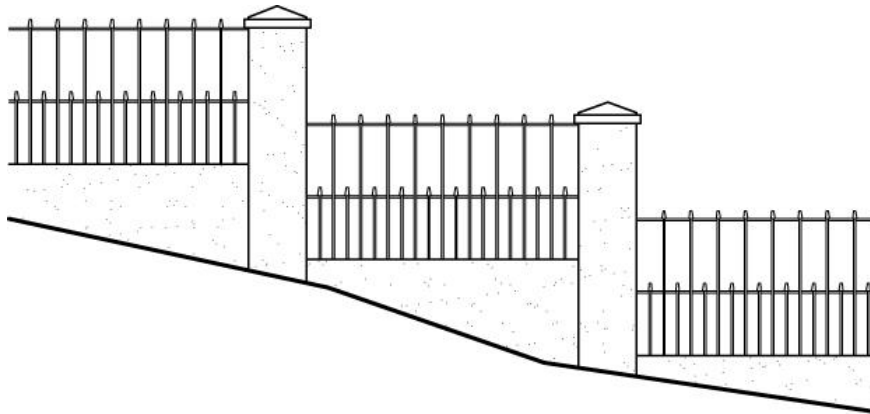

Figure 9 Fence height limit is averaged on sloping sites

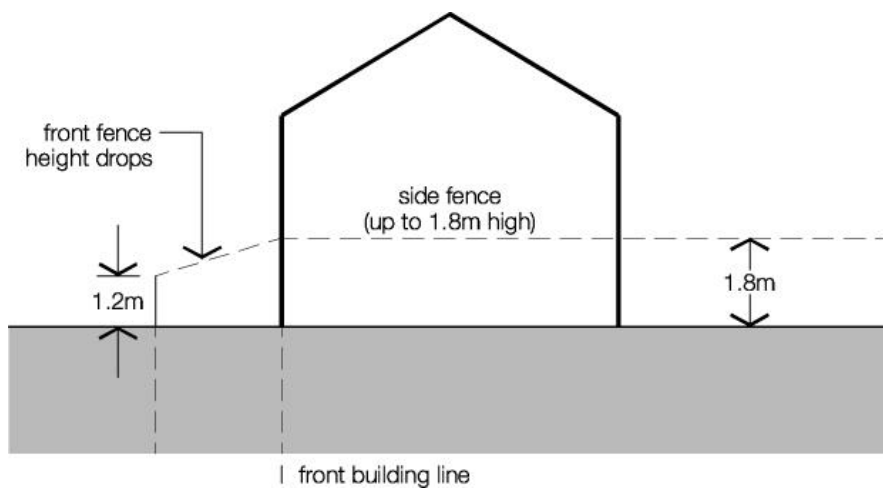

Figure 10 Side fences should taper down from the front building line.
