

main roof level. Operable skylights and hydraulic lifts are acceptable where they finish generally flush with the roof level.

It is acknowledged that in some areas within Waverley there are a number of large roof-top terraces. These large terraces (larger than 15m²) may impact upon the visual and acoustic privacy of adjoining properties. Control (f) above specifically aims to limit this development outcome continuing and the existence of larger roof top terraces in close proximity to the proposed roof terrace does not justify a variation from the maximum size control in (f) above.

- (g) Consideration must be given to noise mitigation measures including:
 - (i) Noise efficient building materials;
 - (ii) Avoiding noisy walking surfaces (such as external metal decks) and unenclosed elevated side passages.
 - (iii) Incorporate all sewerage, water pipes, ducting, cables, fans, vents and other utilities within the building envelope;
 - (iv) Plumbing for each dwelling is to be contained using appropriate noise resistant wall, ceiling and floor treatments in order to prevent the transmission of noise between dwellings.
- (h) External lighting is to be directed away from the main internal living areas and bedrooms of adjacent dwellings.
