

2.3 SETBACKS

ADG Development: refer to Part 3F of the ADG.

2.3.1 Street Setbacks**Objectives**

- (a) To integrate new development within the established setback character of the street.
- (b) To provide a transition between public and private space.
- (c) To assist in achieving visual privacy to dwellings from the street.
- (d) To ensure developments preserve and contribute to the landscape character of the street.

Controls

- (a) Street setbacks must be consistent with the predominant building line setback along the street.
- (b) Where there is no predominant building line, setbacks will be assessed on the merits of the proposal.
- (c) The front setback is to be free of any below ground structures.
- (d) An increase in setbacks may be required to retain existing trees.
- (e) The front setback is to have a soil depth to support mature trees and shrubs that contribute to the streetscape and the amenity of the public domain.
- (f) Where the property is adjacent to a Council park or reserve, no portion of the proposed development including the footings, gates, roof eaves and fences are to encroach over the Council land.
- (g) Setbacks above street frontage height are to be included where the adjacent building includes upper levels setbacks.

2.3.2 Side and Rear Setbacks**Objectives**

- (a) To provide for visual relief and reduce perceived bulk between buildings
- (b) To provide for visual and acoustic privacy, solar access, air circulation and maintaining views between buildings.
- (c) To retain and reinforce existing mature vegetation to maximise natural site drainage, protect the water table, and provide screen planting.
- (d) To provide sufficient space for new mature landscaping that positively contributes to the landscape of the site, and its presence in the streetscape.

Controls

- (a) New buildings and extensions to existing buildings are to provide a minimum 6m rear setback, or extend no further to the rear than the predominant rear building line, whichever is the greater setback. The predominant rear setback is determined separately for each level.
- (b) Side setbacks are to be consistent with Table 3. Reduced setbacks may be permitted where reduced setbacks are more in keeping with the character of the
