
2.11.2 Balconies/ Decks

- (a) Balcony additions are to be designed to relate to the character of the existing building.
- (b) Balconies should not visually dominate the façade. This may require balconies to be limited in width, and to be designed as re-entrant or Juliet balconies.
- (c) Continuous wrap around balconies that add to the bulk of the building are not encouraged. The enclosure of balconies for the purpose of additional floor space is discouraged.
- (d) Enclosure of balconies for weather protection is discouraged.
- (e) Locate primary balconies to achieve maximum solar access and privacy. Sun screens, pergolas, shutters and operable walls are to be used to increase amenity where appropriate, and to ensure privacy for neighbours.
- (f) Design balustrades to allow views and casual surveillance of the street, whilst maintaining visual privacy.
