

2.12 VEHICULAR ACCESS AND PARKING

This Part must be read in conjunction with *Part B7 Transport* of this DCP for applicable parking rates and other transport provisions.

Objectives

- (a) To provide adequate parking on site within new developments.
- (b) To encourage large developments to provide car parking in underground basements.
- (c) To integrate adequate car parking without compromising street character, landscape quality, the provision of deep soil zones or pedestrian amenity and safety.
- (d) To encourage increased use of public transport and bicycles.

Controls

- (a) The siting of car parking must be integrated into the design of the development ensuring the building façade is the dominant streetscape element.
- (b) The car park entry is to be secondary to pedestrian building entry.
- (c) A maximum of one 2-way vehicular access point per individual development is to be provided.
- (d) Car park access is to be provided from secondary streets or lanes.
- (e) The safety of pedestrian entry and circulation is not to be compromised by the location of driveways and car park access.
- (f) The provision of basement parking must not result in non-compliance with the deep soil zone controls in *Part C2.9 Landscaping*.
