

- (d) Illumination at the rear of commercial properties or where installed for security purposes must be sensor controlled, except where public street frontage and/or footpaths require it.
- (e) Development is to minimise negative impacts of lighting from within the premises on nearby properties.

1.2.4 General Amenity

- (a) The design and use of the building is to take into consideration any impact on surrounding residential uses and include mitigation measures where necessary.
- (b) Development shall incorporate plant rooms and any associated services required for the use of the premises into the building envelope. Where this cannot be achieved in an existing development, plant room/utilities are to be designed to cause negligible impact to neighbouring properties and streetscape.
- (c) All new development shall be designed to include an internal ventilation shaft to ensure future alterations do not place the shaft in an unsuitable location.
- (d) No goods shall be placed on the footpath without Council consent.

1.2.5 Noise

- (a) An acoustic report may be required for noise generating uses to demonstrate that noise will be appropriately attenuated between buildings.
- (b) Air conditioning units and cool-room equipment must be located in a plant room or acoustic enclosure.
- (c) Speakers should be located and orientated to minimise noise levels to neighboring properties.
- (d) The design of the premises shall insulate adjoining/nearby properties from any noise or vibration levels caused by the use of the premises.
