

1.5 SUBDIVISION

Objectives

- (a) To reinforce the expression of small lot subdivision pattern in building form.
- (b) To enrich the character and diversity within the centre.
- (c) To define the public and private domains, maintain street hierarchy, and connection.
- (d) To encourage a human scale in building design.
- (e) To encourage a diversity of shop fronts along streets.
- (f) To encourage the highest and best use of land along shopping streets.

Controls

- (a) Development is to comply with *Part B12 Subdivision*.
- (b) Development is to retain the small lot subdivision pattern that reflects the original shop fronts along streets in the Bondi Junction Centre.
- (c) Where this cannot occur due to amalgamation, the design of building elevations is to interpret the small lot subdivision pattern along the street front on lots (refer to Figure 5).
- (d) The design of building elevations on lots is to generally use a 6m grid. This 6m grid can be varied by +/- 2m in order to match an existing grid of an existing building or lot.
- (e) Comply with Figure 6 for small lot subdivision locations.
