

**1.19 EXTERNAL LIVING AREAS****Objectives**

- (a) To provide an external living area for each dwelling.
- (b) To enhance the amenity of internal living spaces.
- (c) To ensure that external living areas do not adversely impact on the amenity of nearby properties.

**Controls**

- (a) External living area is to be screened to achieve visual privacy if located less than 4m from a side boundary.
- (b) The rooftops of developments can be used to provide external living areas.
- (c) Detail and design balconies or terraces in response to the local climate and context, thereby increasing their usefulness. This may be achieved by:
  - (i) Locating balconies and terraces facing predominantly north or east, utilising sun screens, shutters and operable walls to control light and wind;
  - (ii) Providing balconies or terraces with operable screens, Juliet balconies or operable walls/sliding doors with a balustrade may be preferable in special locations where noise or high winds prohibit other solutions;
  - (iii) On towers, use cantilever balconies, partially cantilever balconies and/or recessed balconies in response to daylight, wind, acoustic & visual privacy;
  - (iv) Design balustrades to allow views and casual surveillance of the street while providing for safety and visual privacy; and
  - (v) Detail balustrades using a proportion of solid to transparent materials to address sight lines from the street, public domain or adjacent development.
