

2.2.2 Campbell Parade South

Existing Character and Built Form

Campbell Parade is the principal street that follows the curve of Bondi Beach and is an integral element of the tourist image, providing retail, food and other services for the transient day/night time population, short-term residents and local community (refer to Figure 45). A regular pattern of secondary streets run perpendicular to Bondi Beach, creating visually prominent corners at Francis Street, Sir Thomas Mitchell Road and Lamrock Avenue. The land slopes steeply from Sir Thomas Mitchell Road to the top of the southern headland at Hunter Park.

Existing buildings have narrow frontages built to the street alignment, with notable facades that contribute to its Interwar heritage. Buildings are predominantly rendered masonry with parapets and a vertical expression through the use of bay or vertically proportioned windows, pilasters and a few balconies, typically enclosed. Existing buildings generally have a north-eastern orientation that takes advantage of the aspect and views over Bondi Beach.

Many sites contain heritage items and a large proportion of the area is located within the heritage urban conservation area. Many sites contain contributory buildings worthy of retention as they contribute to the overall character of the Area. These buildings are generally intact and consistent with other 1920s/30s precincts in Sydney.
