

- (c) To create and maintain a cohesive and vibrant streetscape, with leafy trees, verge gardens and areas for people to stop and congregate.
- (d) To maintain a physical and visual connection to the coast.
- (e) To maintain low-rise (human-scale) built form of varying styles, with active shopfronts that are open to the public domain.
- (f) To ensure new buildings are of human scale and provide for a high quality of living.
- (g) To maintain fine grain shop-fronts.

#### 3.1.4 Bronte Beach

**Figure 53** Bronte Beach Centre

##### Existing Character and Built Form

The Bronte Beach Neighbourhood Centre is typified by a single stretch of two (2) to three (3) storey mixed-use, largely Interwar, buildings with retail frontage at ground level under continuous awnings. Upper storeys (that is, storeys above ground level) are used for residential purposes.

Whilst there are street awnings, those to the western end of the strip are less consistent and successful than those to the eastern end. At the western end both glass and canvas awnings exist which vary from the overall uniform character of the pedestrian experience established at the eastern end.

All buildings of historical character are of brick construction, with painted, rendered, and/or face brick finishes.

Significant views (some partly screened by trees along the bus terminus) of Bronte Beach, Bronte Park and the ocean are possible from all points along this section of Bronte Road.
