

- (b) To provide an attractive location for small businesses with exposure to Old South Head Road.
- (c) To provide a safe and walkable public domain.
- (d) To retain low-rise distinctive heritage and character buildings that frame the street, comprising ground floor business and retail offerings, with residential uses on the upper floors.

3.1.7 Curlewis Street

Figure 56 Curlewis Street Centre

Existing Character and Built Form

This intersection is a prominent marker along the length of Old South Head Road, dominated by traffic and providing little pedestrian amenity.

The buildings are mixed architecturally with no predominant style or built form. The relative importance and scale of the intersection is not reflected in the scale of development.

Buildings are of varied height, yet most contain a retail/commercial ground floor and residential upper storeys, and possess some historic character.

Desired Future Character Objectives

- (a) To accommodate a potential increase in the general scale of development in this section of the centre, subject to appropriate site consolidation and satisfying amenity considerations and impacts on adjoining sites.
