

- (e) To maintain a clean and attractive environment, with waste disposal managed discreetly and efficiently.
- (f) To ensure that the centre provides universal access to all users.
- (g) To promote well-maintained mid-rise buildings of varying styles which form a consistent street frontage of ground floor shop fronts and upper storey residential.
- (h) To ensure new buildings are well designed and responsive to existing built form with appropriate street frontage heights.
- (i) To maintain and encourage a diverse range of shops and services.

### 3.1.12 Murriverie Road

**Figure 61** Murriverie Road Centre

#### Existing Character and Built Form

The Murriverie Road local village centre is comprised of approximately nine shops which are used for commercial and retail purposes with some residential uses above ground floor.

The shops are spread over three sections of the street, providing a range of goods and services to assist in meeting the daily needs of the local residents. The area maintains a strong two (2) storey character.

The mixed use buildings are of a range of typologies, built to the street edge with awnings. The buildings of historic character at No.1 Mitchell Street have had some alterations, although the original shop front exists.

The strongest historic character of the centre is provided by the substation, located east of the pocket park on Murriverie Road.

No. 2 Mitchell Street is a good example of a successful transitional building in terms of height (from one (1) to two (2) storeys) and function (from mixed-use to residential).
