

The northern side of Central Bondi Road section is largely residential development with a few health & beauty services. The southern side is mostly shops, with two residential flat buildings near Boonara Ave. The residential developments along this section of Bondi Rd distinguish this section from the West and East Bondi Rd characters.

The eastern end of the corridor is lively and bustling with activity in the evenings, as a local and tourist 'go-to' for restaurants and recreation. The eastern end of Bondi Road, closer to Bondi Beach, has a mix of commercial and residential ground floor uses. The commercial uses are typically at the street frontage, whilst the blocks of apartments have large front setbacks with vehicle crossings and landscaped areas. There are a number of inter-war period 3-4 storey walk-ups and shop-top housing buildings that provide a strong sense of character to the area. The ground floor commercial uses are mostly hospitality and retail and have created a retail 'hub' around the intersection of Denham Street and Bondi Road, due to the fine grain nature of the shop fronts and human scale of the built form.

Desired Future Character Objectives

- (a) To maintain the role and character of Bondi Road in providing local shops, services and residential accommodation for the local community.
- (b) To limit the scale of redevelopment and infill development at the street edge to match the parapet façade height of buildings of historic character, with setbacks to further levels where appropriate.
- (c) In the case of future works and improvements to the 1960s and 1970s residential and hotel towers that exist along Bondi Road, to encourage the street and podium levels to better knit the street fabric together through the introduction of shop fronts at ground level.
- (d) To encourage the use of rear courtyards during trading hours to extend business operations where there will be minimal adverse impacts upon surrounding neighbours.
- (e) To support shared cycle/pedestrian links parallel to Bondi Road that will connect Bondi Junction and Bondi Beach, increase pedestrian and cycle safety, provide rear lane activation opportunity and improve service access and on-site parking arrangements.
- (f) To promote Bondi Road as an important local centre that provides a walkable range of goods and services to the surrounding residential community.
- (g) To ensure ground floor premises provide active and inviting street frontages.
- (h) To ensure development incorporates best practice sustainability initiatives.
- (i) To promote localised energy generation including through solar panels and microgrids.
- (j) To promote green roofing and increased planting on buildings where appropriate.
- (k) To promote a clean environment, with waste disposal managed discreetly and efficiently.
- (l) To encourage heat-reflective materials and increased shading to create a cooler climate for pedestrians.
- (m) To ensure that the centre provides universal access to all users.
- (n) To retain the distinctive historic urban fabric of the high street, including the fine grain shopfront pattern, two-storey street frontage and nil-setbacks, and the architectural detail of the original facades.
- (o) To protect and celebrate the historic character and diverse buildings along Bondi Road.
- (p) To ensure infill development is well designed and responsive to the existing built form and scale, including heritage and character buildings, and is of human scale.
