

Most buildings in this part of the centre address the terminus/junction area along Campbell Parade and this space is considered to have historic character for the area, given its socially important role as a transport interchange.

Desired Future Character Objectives

- (a) To maintain North Bondi as a separate and distinct precinct to the larger Bondi Beach precinct, with the role and character of providing local shops, services and residential accommodation for the local community.
- (b) Where redevelopment in the neighbourhood centre occurs, to ensure the scale of new development protects the residential amenity of adjoining and surrounding properties.
- (c) To maintain the predominantly two - three storey scale of development, at the same time as protecting the existing amenity of properties adjoining the centre.
- (d) The North Bondi RSL is an important community building and considered to be a key site in the centre. It is unlikely that this building marked *, will ever be developed to conform with the planning controls.
- (e) The bus interchange is a key community site and future development at this site is addressed in the Local Village Centres Public Domain Improvement Plan.
- (f) To provide a visual connection to Bondi Beach.
- (g) To provide clean environment, with waste disposal managed efficiently.
- (h) To promote a safe and walkable public domain that promotes connectivity within the centre and to Bondi Beach and surrounding residential areas.
- (i) To ensure that the centre provides universal access to all users.
- (j) To retain low-rise distinctive heritage and character buildings that frame the street, comprising ground floor business and retail offerings, with residential uses on the upper floors.
- (k) To ensure new building and/or refurbishment of existing buildings are well designed and responsive to existing low-rise built form, with appropriate setbacks at upper levels, and driveway crossovers.
- (l) To ensure that no additions are permitted within the front setback of buildings unless it can be clearly demonstrated that the new structure will not dominate the streetscape and subject building, will not obscure views to the building, and will not adversely impact the cultural significance of the place.
