

- (b) Cafes and restaurants located in corner buildings, with side street frontage to residential streets are to orient the trade area, including any outdoor dining, to the commercial street.
- (c) Seating for cafes and restaurants is to be limited to the enclosed ground floor and, where appropriate, the footpath frontage of buildings.
- (d) Building floors above ground and first floor are to be designed for permanent residential use only.
- (e) Car parking is to be located at basement level with vehicular access from side streets or rear lanes rather than the primary street frontage.
- (f) Vehicle access across the primary street frontage within a Local Village Centre is not supported.
- (g) In cases where no side street or rear lane access is available, development is not required to provide car parking.
- (f) Residential and low scale commercial office uses are acceptable at first floor level.
- (g) Commercial office uses may only take place where the building has been specifically designed, or acceptably adapted, for this use, including adequate separation from residential uses elsewhere in the building.
- (h) Clearly separate and distinguish commercial and residential entries and vertical separation.

3.2.2 Public Domain Interface

Objectives

- (a) To create well defined Local Village Centres, designed for retail trading, appropriate commercial uses and community activity at street level.
- (b) To ensure that ground level frontage is of retail uses to the street edge.
- (c) To ensure interest and vitality by maintaining and encouraging a mix of predominately small scale individual retail outlets.
- (d) To ensure original shop fronts, where they exist, are retained and restored.

Controls

- (a) Development must be sensitive to the streetscape character and views. A streetscape and context analysis is to be provided in accordance with *Part B12 Design Excellence*.
- (b) Development on a lot identified in this Part is to provide active street frontages. Refer to *Part B15.2 Active Street Frontages*.
- (c) Buildings are to be located to the front street alignment, with the exception of recommended upper level setbacks, nominated in the controls for each of the individual centres.
- (d) Where existing buildings are setback from the street and are to be refurbished, they are to be extended to the street edge at ground level, except listed heritage items and buildings of historic character.
- (e) Individual buildings are to have a clear street address where entries to upper levels are well defined at the ground floor address.
- (f) New shop fronts are to be consistent in width and height with the predominant and historical character of the street.
- (g) Shop fronts may include recessed entries and display windows, where these are included to provide useable display space and achieve the desired future character of the centre.
