

- (b) To maintain the rhythm of buildings frontages to the street.
- (c) To ensure side setbacks allow glimpses of the beach or ocean.
- (d) To respect the existing building character of boxy proportioned buildings, architectural elements and range of materials and finishes.
- (e) To encourage view sharing.

Controls

- (a) Planting should utilise minimum maintenance species growing to no more than 1m in height at maturity. The appearance and species selection should be compatible with the adjoining gardens. Growth must not encroach upon the footpath or obstruct pedestrian access.
- (b) Side setbacks are to be clear of obstructions to allow views between buildings to the beach.
- (c) Sites adjacent to laneways and pedestrian connections may be able to achieve increased site coverage with a reduced deep soil requirement. Where deep soil requirements are not met, this area is to be replaced with landscaped open space above ground level.
- (d) Communal landscaped gardens are required within the front setback to contribute to the public domain.
- (e) The private open space is permitted to encroach 2.5m into the communal landscaped front setback provided that the front setback is a minimum of 6m from the street boundary.
- (f) Rendered and painted finish is appropriate in this area.
- (g) Allow balconies to be provided over existing car courts for existing buildings on battle-axed blocks along Ramsgate Avenue.
- (h) Roof-top terraces are discouraged due to the greater potential impacts in higher density areas.
