

7.1 GENERAL

The vision for the site is to maintain and grow a health and seniors housing precinct that celebrates the outstanding heritage significance of the site and supports healthy living. This precinct will support, renew and expand community services and residential living within Waverley, which is at the heart of the vision for the site.

Objectives

- (a) To conserve and interpret the significant European heritage of the site.
- (b) To understand and interpret the Aboriginal cultural heritage of the site.
- (c) To ensure the precinct can adapt to the projected localised impacts of climate change.
- (d) To ensure the developed precinct is designed to facilitate healthy and active living and encourage social connectivity within the precinct and within the community.
- (e) To ensure that invited publicly accessible high-quality open spaces are provided that interpret, reinstate or conserve the heritage features of the Edina Estate.
- (f) To minimise vehicle movements within and to the site, and to manage service vehicle movements effectively.
- (g) To provide for clear wayfinding and integrated public artworks that interpret the heritage significance of the site.
- (h) To allow for the continuation, renewal and expansion of community services and residential living.
- (i) To acknowledge and respond to the urban context in terms of form and scale.

Principles

This Site Specific DCP has been developed based on the following principles, which are to be addressed in any masterplan or development on the site:

1. Unify the Estate and enhance its ongoing legacy of care as a community service and health care precinct.
2. Develop a clear masterplan based on the historic evolution of site, its evolving context and community requirements.
3. Retain and restore existing heritage fabric, enhance public access to the heritage garden and reinterpret the former carriageway to heritage gates.
4. Allow for the continuity and expansion of existing hospital uses on the site.
5. Establish a new centrally located residential aged care and community hub as an active “heart” for residents, patients and the broader community.
6. Provide new seniors living; optimise direct street address, residential amenity, streetscape character and landscape.
7. Consolidate new built form to create large continuous gardens for a range of public, private and community uses.
8. Optimise site ecology by maximising deep soil zones and implementing a long-term tree plan (ie. a plan to retain and protect existing healthy trees, replace old or damaged trees and increase the number of large trees on the site).
9. Implement a clear vehicular strategy to prioritise pedestrian comfort and safety while recognising the operational needs and diversity of uses of the estate.
10. Achieve all required operational requirements while achieving compliance with
