

- (c) A lower garden space is to be created that interprets the pond featured in the original central garden space through landscaping layout, inclusion of a water feature, or signage interpretation. The original height difference between the upper lawn and carriageway is to be maintained and linked by existing stone stairs.
- (d) The lower garden space described in (c) should at a minimum, retain the trees identified in Figure 2 and seek to retain as many existing mature trees as possible across the site.
- (e) Any trees present considered as having 'High Significance' or 'Exceptional Significance' in *Annexure E7-1 – Conservation Management Plan 2017*, which are not displayed in Figure 2 and not contained within the new building zones displayed in Figure 3, should be retained.
- (f) Any trees identified on the *Waverley Significant Tree Register* are subject to the relevant provisions in Part B3 - Landscaping, Biodiversity and Vegetation Preservation.
- (g) Ensure that the design of the central building is such that the significant fig near the existing tennis court is retained, along with the significant magnolia grandiflora, and their wellbeing preserved.
- (h) Maximise the protection of significant trees on the site and their corresponding tree protection zones.
- (i) The original estate gates at the corner of Bronte Road and Birrell Street are to be retained and maintained and celebrated as the traditional formal entry point to the site. This must include the use of the gates as a pedestrian access to the site. A pathway is to be provided from the gates leading into the site. This pathway is to be publicly accessible and must align with the controls specified in 7.5 Public Domain and open space.
- (j) The eastern Birrell Street entrance is to be preserved, through the retention of the avenue of Canary Palms and the experience of a late Victorian streetscape.
- (k) Ensure that the appropriate standard of professional and craft expertise corresponds to the grade of significance through involvement of a qualified heritage consultant.

7.4.2 New buildings and landscape

- (a) New buildings adjacent to the Victorian private road or a building of significant fabric as identified in Figure 2 are to read as contributing or harmonising to the heritage buildings.
- (b) The scale of new buildings should be of a scale consistent with the controls outlined in the WLEP. New buildings should respect the landmark qualities of the Edina tower or the Norfolk Island pines.
- (c) Site lines that link open spaces are to be created and framed through the site.
- (d) Should demolition or excavation works involve areas of potential archaeological deposits, plan for proper investigation and interpretation of those deposits.
- (e) Fabric of new buildings must be sympathetic to the palette and colour of historic materials used in the original estate.

7.4.3 Heritage Interpretation and Reconstruction

- (a) The place is to be interpreted as the whole estate developed by the Vickery
