

- Team. Proposed species are to be detailed in the Landscaping Plan.
- (k) Where appropriate, deciduous trees such as *Melia azedarach* var. *australis* are to be planted near windows, particularly on the north and west aspects, to provide shading in summer and filtered sunlight in winter.
 - (l) Wildlife-friendly lighting is to be provided across the site to enable fauna movements, particularly at nighttime. Design responses that include soft (lower wattage), low-placed lights facing downwards with a warm colour temperature (less than 2500K), are preferable to up-lighting, lighting from high on poles (even if facing downwards), bright lighting (higher wattage) or lighting with a cool or blue cast.
 - (m) Pollinator-friendly species are to be provided on-site with details in the Landscaping Plan. Pollinator species typically have small, white cream, yellow, blue, or purple flowers.

Table 1 – Preferred and discouraged species

Preferred Species			Discouraged Species
Shrub Layer	Trees	Ferns	
<i>Goodenia ovata</i> <i>Cordyline stricta</i> <i>Doryanthes excelsa</i> <i>Baeckea linifolia</i> <i>Banksia spinulosa</i> <i>Austromyrtus dulcis</i> <i>Ozothamnus diosmifolius</i> <i>Conospermum taxifolium</i> <i>Eristoemon australasius</i> <i>Isopogon anemonifolius</i> <i>Boronia parvifolia</i>	<i>Eucalyptus haemastoma</i> <i>Pittosporum revolutum</i> <i>Leptospermum laevis</i> <i>Leptospermum squarrosum</i> <i>Backhousia citriodora</i> <i>Elaeocarpus reticulatus</i> <i>Podocarpus elatus</i> <i>Macadamia integrifolia</i> <i>Backhousia citriodora</i> <i>Melia azedarach</i> <i>Brachychiton acerifolius</i> <i>Brachychiton populneus</i> <i>Grevillea robusta</i> <i>Casuarina equisetifolia</i> <i>Tristania laurina</i> <i>Davidsonia jerseyana</i> <i>Tristania laurina</i> Citrus trees such as lemons and limes	<i>Asplenium australasicum</i>	Liorpe Purple Corydalis <i>Rapheolepis</i>
