

COLOUR

Colour in the Bondi Beachfront Area reflects both periodic change in community taste and the availability of building materials over time. In terms of natural materials, the use of sandstone as a plinth with the characteristic brown dry pressed or the clinker burnt purple brick above provides a traditional colour palette.

Colours shown at the top right (1) are typical of the colour palette for Campbell Parade adopted by Council in 1988. This scheme reflected in the beachside character of the area with complementary sand and sea colours in the high to mid tone range.

Four alternative schemes are shown (2 - 5). These stay within the sand and sea: range but strengthen tonal contrast and include richer, more saturated hues. Whilst embracing a broader range of colours, the proposals avoid the purple/red segment of the spectrum, and mud/olive colourings.

Sample colours taken from the Taubmans range are (left to right):

1 Sambu (T22-3W) Cameo Lace (T2-3W) Mariner Blue (T74-7A) Portolina (T79-4W) Golden Globe (T22-6A)	4 Portland Stone (T122-2W) Woollooware (T122-5W) Mascari (T116-7A) Mojo (T172-8B1) Deep Splendor (T79-7A)

The colour ranges are provided for guidance in the development of colour schemes appropriate for each building, with reference to size, location, style and other specific conditions. They are therefore not definitive colour schemes but should be regarded as an indication of the scope of colour suitable for the preparation of schemes for individual properties.
