

2. Introduction

2.1. Outline of tasks

This plan provides a detailed analysis of the place and an assessment of the sites as a whole and its major significant elements. It also identifies the built elements, site features and landscape features on the site.

The history of the site is investigated from documentary sources. Then the cultural significance of the site is assessed and a statement of significance defined.

The implications of its significance, its statutory listings, and the owners' requirements are analysed, and in light of this, policies are developed for the conservation of that significance.

This report is a revision of the Conservation Management Plan and Development Strategy for the Waverley War Memorial Hospital prepared by John Oultram Heritage & Design in March 2005 (2005 CMP). For this revision

- The detailed historical account prepared for the 2005 CMP is reproduced in the Appendix. Additional photographic research has been undertaken for this revision, and four additional photographs are reproduced in the report;
- A new survey of the site has been done, to present current configurations, along with new diagrams to demonstrate site development that includes spaces between the buildings on the estate;
- A new Assessment and Statement of Significance has been prepared;
- Diagrams have been prepared to indicate in detail levels of Significance across the whole site;
- Formal policies have been formed based partly on a new statement of owner's needs.

2.2. Definition of the study area

The site is that of the Uniting Waverley War Memorial Hospital Site in Bronte Street Waverley, as shown in Figure 1. The real property descriptions are also shown on the plan.
