

There are boundary tree plantings to the rear of Edina along Carrington Street but this area is largely hardstanding.

The lower portion of the site has been redeveloped for buildings and pathways though there are remnant Victorian plantings along the lower terrace bank and in the section of the site toward the ornate entry gates to Bronte Road. There is a large area of lawn towards the rear of the houses along Bronte Road.

4.1.1. Site Features

The site contains extensive remains of the original development of the site and many later site features.

The upper portion of the site contains many elements from the Victorian garden including a set of statues on pedestals that appear to represent the arts and industry. The form of the original turning circle is in place, though resurfaced, and the original paths and planters have rolled and roped edges in places.

4.2. Analysis of Existing Fabric

The physical fabric of the estate, its principle views and spaces have been surveyed and recorded on the plan Figure 9.
