

7. Conservation Policies

7.1. Conservation Approach

Conservation includes all of the processes of looking after a place so that its cultural significance is retained. It is one aspect of the overall management of a place. The Burra Charter is the key document setting out the principles behind conservation in Australia, and the policies below have been formulated in accordance with the Burra Charter.

Conservation policies outline the ideal outcome in heritage terms. It is acknowledged that other factors must come into play in the management of any complex site. In such cases, management decisions which allow the greatest number of conservation policies to be met are to be strived for.

The main tangible aspects of the significance of the Waverley War Memorial Hospital are its aesthetic and historical qualities as a substantially intact Victorian estate. Therefore the conservation approach adopted for these policies relies on the spatial integrity of the place and its aesthetic qualities.

The following policies apply to the site as a whole. Further detailed policies should be developed for the four Victorian houses, stables, summerhouse, and War Memorial Hospital and Chapel.
