

Objectives

- (a) Minimise risk to life and damage to property by controlling development on flood prone land
- (b) Ensure the impacts of the full range of potential floods up to and including the PMF are considered when assessing development having regard to the sensitivity of different land uses to flooding.
- (c) Ensure that development does not have an unacceptable impact on flood behaviour, people's safety, surrounding properties and structures, and the natural environment.
- (d) To provide detailed controls that if satisfied would address the considerations required by clause 5.21 of *Waverley Local Environmental Plan 2012*.

Controls

How to determine what planning controls apply

Refer to land use risk categories the table below in Annexure B5-1, and the planning controls matrix below to determine which controls are applied.

Application of Controls

Compliance with the prescriptive controls must be demonstrated.

Where the prescriptive controls are not satisfied, applicants must demonstrate, based on site specific assessments, that the performance criteria are clearly satisfied to the satisfaction of Council.
