

Figure 7 Sympathetic additions located to the rear

8.6.3 Infill Development

- (a) New development and alterations and additions to existing dwellings should be compatible and consistent with development both in the immediate vicinity and in the overall context of the street.
- (b) Contemporary design is acceptable in a conservation area where it is sympathetic to, and respects the context of the conservation area and any heritage item in the vicinity (refer to Figure 8).
- (c) New buildings adjacent to buildings of historic character or heritage items should be secondary in prominence to the existing streetscape fabric and draw on the predominant pattern of the existing streetscape.
- (d) Where properties have side street or rear lane frontages, alterations and additions reinforce the desirable side or rear streetscape.
- (e) Appropriate landscape species and plantings are used to reinforce and frame existing vistas, particularly in the typical north-south street corridors.
