

8.7 SITING

Objectives

- (a) To ensure that the existing heritage character of the streetscape including setbacks, siting and landscaping is maintained.
- (b) To maintain the general pattern of setbacks within a street.
- (c) To ensure that adequate curtilage and landscape setting is provided.
- (d) To ensure that the siting of alterations and additions to existing and new buildings retains the integrity of the heritage item, its setting, and the conservation area.

Controls

8.7.1 All Development

- (a) Development should conform to the predominant front setbacks in the streetscape.
- (b) Front and rear setbacks should ensure the retention of the existing landscape character of the heritage item or conservation area.
- (c) Any significant historical pattern of subdivision and lot sizes is to be retained.
- (d) Development should respect or utilise the topography and existing vegetation of the land such as rock outcrops and mature trees.
- (e) Building setbacks, terraces, balconies and rooflines are to be consistent within the defined street corridor and provide uniformity to a group of attached dwellings, or mirror an attached semi.

8.7.2 Heritage Items and Contributory Buildings

- (a) Extensions should be kept to the rear of the site to minimise the impact upon the streetscape.
- (b) If there is insufficient space for a rear extension, side extensions should be setback as far as possible from the street.
- (c) Subdivision or site amalgamation involving heritage items or contributory buildings should not compromise the setting or curtilage of buildings on or adjoining the site.
- (d) Construction, demolition or modification should not adversely affect the existing setting of the item or area.
