

8.8 SCALE AND PROPORTION

Objectives

- (a) To ensure that alterations and additions to heritage item and contributory building are consistent with the scale and proportion of the item and/or streetscape.
- (b) To encourage infill development that recognises the predominant scale and proportion of the setting and responds sympathetically.
- (c) To promote development that is respectful of the scale of the surrounding buildings and area.

Controls

8.8.1 Heritage Items and Contributory Buildings

- (a) Alterations and additions should not visually dominate, compete with or conceal the original scale and proportion of the heritage item, contributory building or conservation area.
- (b) Alterations and additions should respect the proportions of major elements including doors, windows, roof forms and verandahs (refer to Figures 9-11).

8.8.2 Infill Development

- (a) Infill development should be cohesive in scale, proportion and finish to the surrounding streetscape and buildings (refer to Figure 12).
- (b) Infill development should maintain and enhance the skyline profiles of established settings.
- (c) Where the scale of the roof is much larger than that of adjacent buildings, the roof should be broken up into smaller elements to reduce bulk.
- (d) Setbacks should be provided to upper levels.
